

Report into the Proposal to allow all teachers a free supply of chocolate when teaching at Brentford School for Girls

The purpose of this report is to demand that the teachers at Brentford School for Girls are given free chocolate, to be made available to teaching staff when they are at school. This could bring lots of benefits to the school; we want our chocolate! GIVE IT TO US! This report is going to explain why teachers at our school MUST be given free and endless supplies of chocolate.

It's crazy that we don't have free chocolate in the staffroom and in classrooms every day. We all spend lots of money on it and we need it to do our job! Other schools have free chocolate supplies I'm sure, we should have the same as them. It's not fair! How would you like it if you heard that other teachers in different schools were been given lots of gorgeous chocolate but then you didn't even get a free dairy milk in the staff room at lunchtime? We want it too. Or else!

This chocolate has often been made in Our area and therefore it belongs in our bellies. Give it to us now! We won't be able to work as well without this chocolate, and we've spend a lot of time thinking about the different kinds that we want. Why haven't we got this free chocolate already when it's obvious that it's ours and we really, really need it? Why? We want it! Give us our chocolate now!!!!

We demand to have our chocolate now, otherwise we will have to stop working or something. I can barely write this report right now because my belly is rumbling so loudly; I'm so hungry. We cannot work in these conditions! We need our chocolate! We must have it!

So there it is, we must have our chocolate. We can't keep silent on this any more. We need chocolate to survive on a daily basis in school. GIVE US OUR CHOCOLATE OR ELSE WE WILL GO ON STRIKE OR SOMETHING LIKE THAT! Do you want unhappy staff or what? I'll have a galaxy please!
