

21st May 2026

CBE/mm

Dear Parent/Carer,

I hope your daughter has enjoyed her KS3 learning in science. As KS3 is ending and we are moving towards KS4, I am writing to inform you about the end of Year 8 Science assessment. This will take place on Friday 19th June. It will take place in a formal exam setting.

So you can support your daughter, the assessment will include topics that she has studied in Year 8. All students have access to revision resources on Google Classroom and they also have hard copies of all the resources in their Science folders.

The topics your daughter needs to revise are as follows:

- 8A Food and nutrition
- 8B Plant reproduction
- 8C Breathing and respiration
- 8E Combustion
- 8F The Periodic table
- 8G Metals and their uses
- 8K Energy transfers
- 8L Earth and Space

The reason we are doing this assessment is that the Science sets in Year 9 will mainly be based on the result of the assessment. However, if your daughter struggles in exam situations and underperforms, we will also take into account the results of her end of unit tests that have been completed throughout this year.

If you have any questions or would like further information on how best to support your daughter during this period, please do not hesitate to get in touch.

Yours faithfully,

C. Bell

Miss Bell

Deputy Head of Science
